

# QUALITY, ENVIRONMENTAL AND OCCUPATIONAL HEALTH & SAFETY POLICY

## **MANAGING DIRECTOR'S DECISION No. 02/24**

Subject	Quality, Environmental and Occupational Health & Safety Policy
Prepared by	Ing. Tomáš Králíček – PM
Date of Issue	13 June 2024

The management of AB JET, s.r.o., within its implementation processes of metalworking, machining, and shape cutting of all materials using high-pressure water jet technology and laser technology, has adopted this Quality, Environmental and Occupational Health & Safety Policy in accordance with the context of the company and its internal and external aspects.

## **Company Management Undertakes To:**

- Achieve stable quality of our services while continuously improving the overall performance, environmental profile, and safety profile of the organization.
- Fulfil current and future requirements, needs, and expectations of customers and interested parties and contribute to maintaining existing customers and acquiring new ones.
- Increase the qualifications, competence, and engagement of company employees in order to ensure compliance, reliability, safety, and quality of provided services while minimizing impacts on the environment.
- Improve business relationships and involve the organization's business partners in the process of continuous improvement of service quality and the environmental and safety profile of the organization.
- Prevent, eliminate, or reduce negative impacts on the environment and occupational health and safety risks, and prevent emergency situations.
- Communicate openly with employees, authorities, the public, and interest groups and provide them with information regarding the policy, adopted objectives, and programmes in the areas of environmental protection and occupational health and safety.
- Consistently comply with binding obligations related to the subject of activities and environmental and safety aspects.
- Minimize the use of hazardous chemical substances and mixtures and, where possible, replace chemicals and mixtures that endanger the environment.
- Create and maintain an effective and efficient integrated management system, ensure adequate resources for it, and continuously improve it.

**Ing. Tomáš Králíček**  
Managing Director
